Committed to this origin, Malibu is now taking off in the middle-class segment. With convincing vehicles and intelligent solutions. With fresh ideas and the ambition to correspond to your desires.
Space to develop.
Space for your own needs.

Living
FREEDOM IS RARELY SO COSY!

Comfort when travelling is created especially if there is enough space. Space for you to regenerate!
By applying clever solutions, we have optimally achieved this in the Malibu Van. For example, with
the largest table in the Van class that can even be extended. Or by the additional lockable storage
compartment in the hatch above the driver’s cabin. The van is prepared to make you feel comfortable.

Four persons can comfortably take place in the cosy
seating group. If you push the driver’s seat turned around
right to the back, taller persons also have sufficient
comfortable space – or even for your pet! (Equipment
line Classic).
